Wordpress (WooCommerce) - TrustPay Payments Implementation Guide

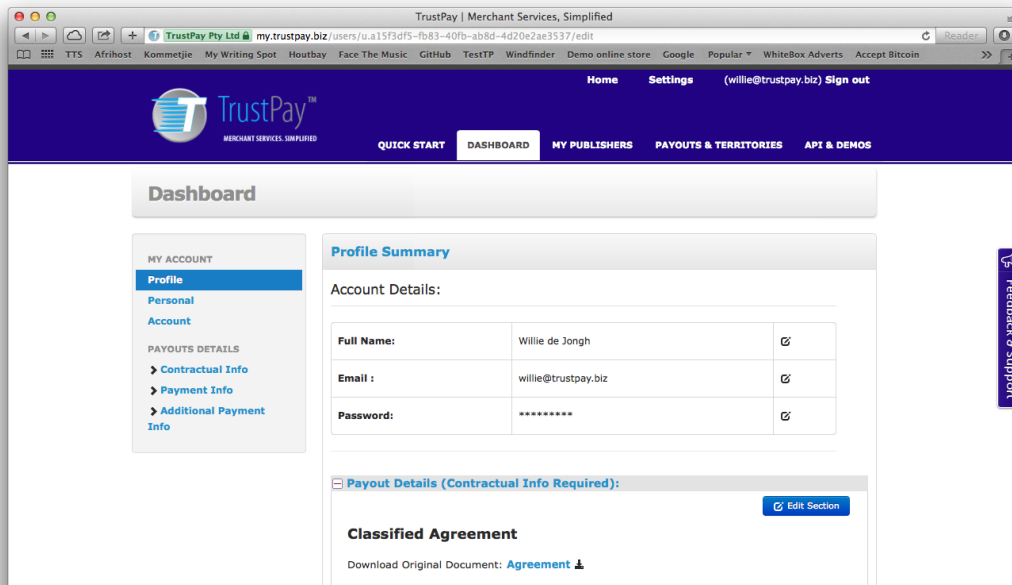

This document describes the steps to be taken to integrate TrustPay Payments into your WordPress (WooCommerce) e-commerce website.

1. Register for a TrustPay Vendor Key:

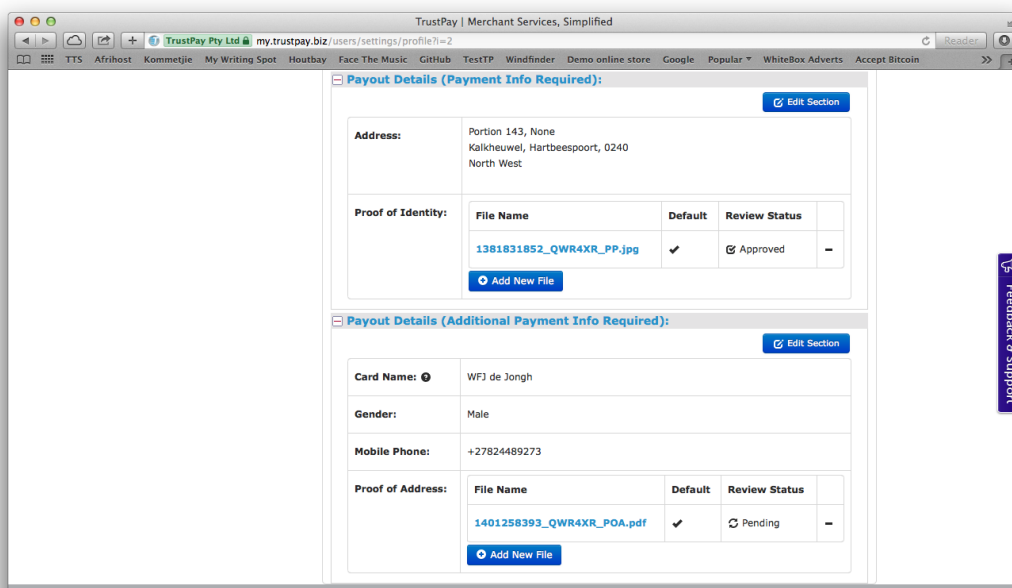

- Goto <https://my.trustpay.biz>
- Click on SignUp and create a new user account.

A screenshot of a web browser showing the TrustPay merchant services sign-up page. The browser's address bar displays 'my.trustpay.biz/signup'. The page has a dark blue header with the TrustPay logo and 'MERCHANT SERVICES, SIMPLIFIED' text. Navigation links for 'Sign in' and 'Sign up' are in the top right. The main content area is titled 'Create your free personal account' and contains two sections: 'Personal Details' with fields for Firstname, Surname, Cart, Company name, and OpenCart; and 'Account Details' with fields for Email, Password, and Password Confirmation. A yellow box at the bottom states: 'By clicking on "Create my account" below, you are agreeing to the Terms of Use and Privacy Policy.' A blue 'Create my account' button is at the bottom. A vertical 'Feedback & Support' link is on the right edge.

- You have to verify your email and then you can sign in to <https://my.trustpay.biz>
- Goto Settings > Profile to complete KYC information.

- You have to download the TrustPay agreement, print it, sign it, scan it and upload again.
- You have to upload a copy of your Identity document or passport and proof of residence. This will enable us to pay you up to USD 20,000 per month.

- Create a new Application for your Wordpress e-Commerce website

Publishers

Sign up for a personal account → Setup your publisher → **Register your application** → Configure your payment methods

Register New Application

Publisher Details

Publisher Name
ECommerce

Application Details

Application Name
OpenCart Site

Notification URL
http://demo.opencart.com

URL to which notifications associated with your application will be sent to.

Shared Secret
opencartsecret

A shared secret for signing notifications associated with your application.

Applications have their own context
The application you choose to create on the following screen will be assigned to the Publisher selected.

Notification URLs
When a transaction occurs, our server can notify yours via this URL. The message is signed with the shared secret to prevent spoofing.

Add Application **Cancel**

- The notification URL must be :
http://your.wordpress.url/?wc-api=WC_Gateway_TrustPay/
- Where “http://your.wordpress.url” is the URL to your Wordpress installation.
- Shared-Secret is any secure shared secret you choose.
- The Notification URL and shared-secret have to be configured on the Drupal side as well.
- Select the territories and payment methods that you want to support.

Publishers

Sign up for a personal account → Setup your publisher → Register your application → **Configure your payment methods**

WESTERN AFRICA

EASTERN AFRICA

CENTRAL AFRICA

- Go to Application that you have created and take note of the “Application ID”

2. Install TrustPay Module in your WordPress installation:

- Visit <http://www.woocommerce.com> and under Extensions, search for “TrustPay” extension.
- The “TrustPay” Woocommerce extension has the following very dependency modules:
 - WooCommerce
 - OAuth Provider
- Install the plugins as with like any other Wordpress plugin via Administration >Plugins

3. Configure Wordpress installation for TrustPay Module:

- Log into your Wordpress Admin section
- Click on WooCommerce > Settings > Checkout

Checkout Page:

Terms and Conditions:

Checkout Endpoints

Endpoints are appended to your page URLs to handle specific actions during the checkout process. They should be unique.

Pay:

Order Received:

Add Payment Method:

Payment Gateways

Installed gateways are listed below. Drag and drop gateways to control their display order on the frontend.

Default	Gateway	Gateway ID	Status	
<input checked="" type="radio"/>	Direct Bank Transfer	bacs	-	<input type="button" value="Settings"/>
<input checked="" type="radio"/>	Cheque Payment	cheque	-	<input type="button" value="Settings"/>
<input checked="" type="radio"/>	Cash on Delivery	cod	<input checked="" type="radio"/>	<input type="button" value="Settings"/>
<input checked="" type="radio"/>	Credit Card	mijireh_checkout	-	<input type="button" value="Settings"/>
<input checked="" type="radio"/>	PayPal	paypal	-	<input type="button" value="Settings"/>
<input checked="" type="radio"/>	Trustpay	trustpay	<input checked="" type="radio"/>	<input type="button" value="Settings"/>

Thank you for creating with WordPress.

Get Version 3.9.1

- Click on the “Settings” button link next to TrustPay.
- You will see the following page:

The screenshot shows the WordPress admin dashboard with the WooCommerce settings for the TrustPay gateway. The left sidebar is dark with the 'WooCommerce' menu item highlighted. The main content area is light gray and contains the following fields:

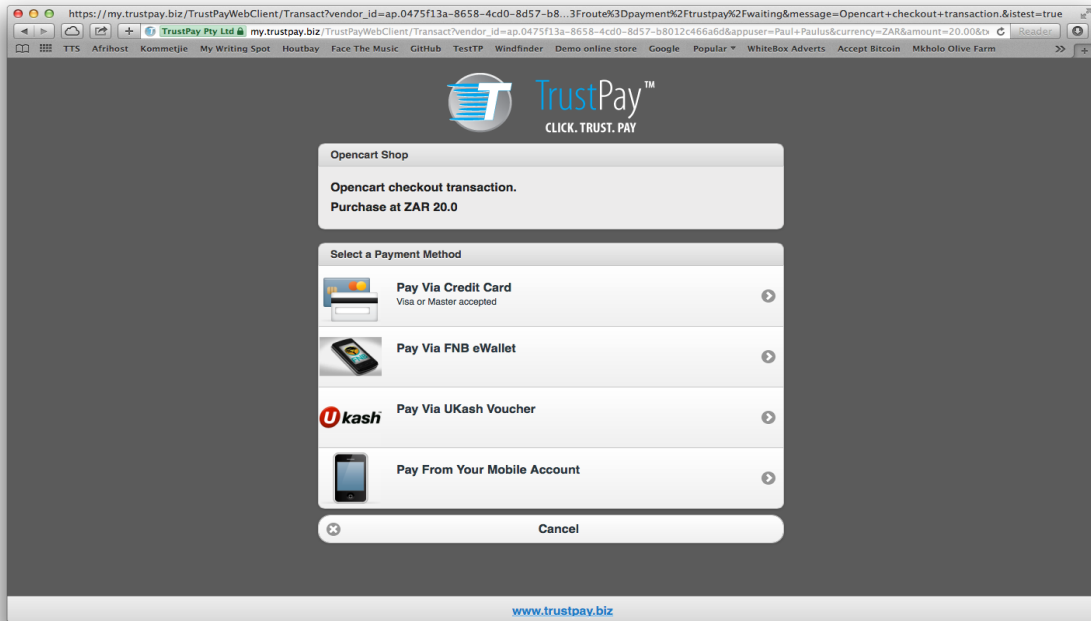

- Title:** Trustpay
- Description:** Pay with TrustPay Gateway Methods
- Vendor Key:** ap.bba1acb4-2f97-4445-bc8a-56129deb93e9. Below the field is a note: "Please enter your Trustpay Vendor Key. You can to get this information from your [TrustPay Account](#)."
- Notification URL:** http://demo.woocommerce.trustpay.biz?wc-api=*. Below the field is a note: "Please enter the Notification URL. You can to get this information from your [TrustPay Account](#)."
- Shared Secret:** (empty field). Below the field is a note: "Please enter the Shared Secret. You can to get this information from your [TrustPay Account](#)."
- Success Postback URL:** (empty field). Below the field is a note: "Leave blank for default woocommerce success url"
- Failure Postback URL:** (empty field). Below the field is a note: "Leave blank for default woocommerce fail url"
- Gateway Testing:** (empty field)
- Test Mode:** ☒ Enable Development/Test Mode
- Debug Log:** ☒ Enable logging. Below the field is a note: "Log Trustpay events, such as API requests, inside `woocommerce/logs/trustpay.txt`."

At the bottom left of the main content area is a blue button labeled "Save changes". At the bottom right, there is a link "Get Version 3.9.1".

- Enter the TrustPay Vendor Id as the Application ID you got from my.trustpay.biz
- Enter the TrustPay Notification Url as the URL created on my.trustpay.biz
- Enter the Shared secret as the shared secret created on my.trustpay.biz
- Optionally enter the Success URL and Cancel URL, advisable to leave them as default.
- Enable Development/Test Mode for TrustPay
- Click on the “Save” button

Installation Testing

- Exit the Wordpress Administration Area.
- Log onto your Wordpress as a consumer
- Shop checkout and use TrustPay as Payment method
